

After enjoying this area part-time, Jerry Nelson and family have now been full time residents for 3 years in Bear Valley. Jerry has been visiting the Bear Valley area part time since he was a child in the early 1970's. He recently is semi-retired from the Hi-Tech arena in Silicon Valley where he was also born and raised. He completed his undergraduate work in engineering at SJSU, and since then completed many engineering certifications including orbital dynamics under the US Air Force Academy classes. He began his career as an orbital analyst at a small startup company working on many top secret projects for the various government agencies. Jerry spent 12 additional years as a Programmer, Systems Engineer, and IT Engineer working at various Fortune 500 companies. For the past 2.5 years he has been consulting part time, and more recently has been contracting for the Governor's IT Division in Carson City.

Jerry's wife, Mitzi, is a BVRI Board member and has also served on the BV Parents Board. Jerry also serves as the development ski team representative

on the BVSEF Board. As a full time Bear Valley resident he has been dedicating himself to the BV local community. He does believe that his fair and analytical personality can greatly benefit our community water board as a whole. Jerry continues to be very active in volunteering much of his time and donating to our local Bear Valley interests such as the local school, library, new play ground, Parent Group, the many fund raising events, and more recently completed the First Responder Certification and has already applied to be part of the Search and Rescue team.
